

Aller-Sin Caps

DESCRIPTION

Aller-Sin Caps, provided by Douglas Laboratories®, supplies 440 mg of a synergistic, proprietary blend of herbs, specially formulated for support of respiratory conditions.

FUNCTIONS

Boneset herb is a traditional herb of the Native Americans that has been used as a stimulant, febrifuge and laxative. Studies analyzing the herb have indicated that it contains heteroglycans, which are immuno-stimulating polysaccharides. Used traditionally as an herb for bronchitis and dry coughs, mullein is a common herb that contains a high proportion of mucilage, which can be useful for mucus membranes. It has also demonstrated antiviral capabilities in laboratory tests. Horseradish, fennel seeds and fenugreek seeds have been used as food spices and for respiratory support for many cultures worldwide.

FORMULA (#80478)

Each capsule contains:

Proprietary Blend440 mg
Boneset Herb, Fenugreek Seeds, Horseradish Root,
Mullein Leaves and Fennel Seeds

SUGGESTED USE

Adults take 2-6 capsules daily with meals or as directed by physician.

SIDE EFFECTS

No adverse side effects reported.

HOW SUPPLIED

Supplied in bottles of 100 capsules.

STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
